JAYASURIYA J

AI Process Automation Analyst | Business Analyst | Data Analyst
Dubai, UAE
+971 56 967 4878 jsuriya454@gmail.com LinkedIn GitHub Portfolio

PROFILE SUMMARY

- Business & Data Analyst with hands-on experience across the full SDLC, including requirements elicitation, BRD/FRD documentation, Agile delivery, UAT coordination, and stakeholder management.
- Currently working as an AI Process Automation Analyst at an AV and event production company in Dubai, leading digital transformation by delivering 10 internal tools in 5 months that use the Claude AI API and Google Sheets to digitise manual finance, operations and sales workflows.
- Skilled in process mapping, gap analysis, and translating business needs into functional requirements using epics, user stories, acceptance criteria, process flows, and wireframes within Agile Scrum environments.
- Proficient in data cleaning, transformation, and exploratory data analysis using SQL and Python (Pandas, NumPy) to support data-driven decision-making.
- Experienced in building interactive dashboards and visualizations using Power BI and Excel to present KPIs and actionable business insights.
- Strong ability to bridge business requirements with analytical solutions by combining documentation expertise, data interpretation skills, and AI-driven automation, explaining solutions clearly to technical and non-technical audiences.

PROFESSIONAL EXPERIENCE

AI Process Automation Analyst | Prince AV, Dubai, UAE **May 2026 – Present**

- **Requirements gathering:** Facilitate discovery interviews and workshops with admin, finance, transport and sales stakeholders; map AS-IS and TO-BE processes, identify gaps, and turn findings into functional requirements and process documentation.
- **Solution delivery:** Delivered 10 internal tools in 5 months, from workflow design to launch, integrating the Claude AI API with Google Sheets, used daily by admin, accounts, drivers, sales and all staff.
- **Intelligent document processing:** Automated reading of labour bills, receipts and truck bills, cutting labour bill processing from about 1 hour to 5 minutes.
- **Operations digitisation:** Replaced paper driver logbooks and handwritten expense claims with mobile workflows that meet finance audit requirements, and set up automated event and dry-hire reminders.
- **Sales enablement:** Built an AI lead pipeline that researches and BANT-qualifies B2B prospects across the UAE and KSA.
- **Testing, adoption & strategy:** Wrote test cases and led pilot testing, UAT, data validation and staff training with visual guides; completed a competitor analysis of Dubai event and AV companies and a 12-month growth roadmap.
- **Tools:** Claude API, Anthropic Console, Replit, Google Sheets API, Google Drive, Google Cloud, Cloudinary, cron-job.org, Apollo.io, Excel.

Business Analyst Intern | Neubaitics Tech Pvt Ltd **Jan 2025 – Apr 2025**

- Conducted market research and competitor analysis to support product positioning, pricing strategy, and feature prioritization decisions.
- Documented business and functional requirements by creating BRDs, FRDs, user stories, process flows, and wireframes across multiple modules.
- Supported Agile Scrum delivery by assisting in epic creation, sprint planning, backlog grooming, UAT execution, and requirement traceability (RTM).
- Collaborated cross-functionally using Jira, Confluence, Figma, Lucidchart, Trello, and Excel to maintain structured and traceable documentation.

Business & Data Analyst Intern | Kulture Hire **Aug 2024 – Jan 2025**

- Designed and analyzed large-scale survey research (5,000+ responses) using the 5W1H framework; cleaned and validated datasets using Excel, Python, and SQL to ensure data accuracy and reduce manual reporting by 30%.
- Developed 5 interactive Power BI dashboards to visualize hiring trends and marketing performance, accelerating strategic decision-making by 25%.
- Collaborated with cross-functional teams to translate analytical insights into actionable hiring strategies, contributing to a 15% improvement in lead conversion.

PROJECTS

AI Sales Lead Pipeline – Prince AV **Oct 2026 – Present**

- The sales team researched B2B prospects manually with no consistent qualification standard; tasked with building a repeatable lead pipeline for the UAE and KSA markets.

- Built an AI pipeline using Claude and Apollo.io that researches each prospect, scores it with BANT and tracks it through SPANCO stages, cutting research time to about 2 minutes per lead.

AI Labour Bill Reconciliation – Prince AV **Jul 2026 – Aug 2026**

- Finance checked every scanned labour bill against agreed rates by hand, taking about 1 hour per bill and risking payment errors.
- Mapped the process with finance and built a Claude AI tool that reads scanned bills and reconciles them against agreed rates; achieved 9/9 lines correct in testing and cut processing to about 5 minutes per bill.

HRMS – Employee Lifecycle & Leave Management System **Apr 2026**

- Led end-to-end Business Analysis to replace manual employee and leave tracking: gathered requirements, prepared BRD & FRD, modelled AS-IS & TO-BE processes, and created process flows, use case diagrams and wireframes.
- Defined 10 Epics and 50 User Stories with acceptance criteria, managed the Agile Scrum lifecycle through UAT with RTM, and developed SOPs and documentation governance, ensuring full traceability and version control.

Smart Campus Hiring Automation System **Jul 2025**

- Documented requirements for a system to automate the manual campus hiring process: BRD, FRD, use case diagrams, 10 EPICs and 37 user stories in Jira across 5 sprints.
- Delivered UAT cases and an RTM, achieving 100% functional coverage and alignment between stakeholders and the development team.

Heart Attack Trends Analysis **Mar 2025**

- Analyzed 6.6M+ health records using SQL and Python to identify the key demographic and medical risk factors behind heart attacks.
- Cleaned and validated the data, improving accuracy by 95%, and uncovered a 65%+ correlation with hypertension and diabetes to support early risk identification.

SKILLS

Business Analysis & Methodologies: Business Requirements Gathering, Stakeholder Management, Workshop Facilitation, Process Mapping (AS-IS/TO-BE), Gap Analysis, BRD, FRD, User Stories, Acceptance Criteria, Use Case Diagrams, Process Flows, Wireframes & Mock-ups, UAT, Test Cases, RTM, Agile Scrum, SDLC, SOP Documentation, Documentation Governance, Version Control, Change Management

Automation & AI Tools: Claude API Integration, Prompt Engineering, AI Document Processing, Business Process Automation, Workflow Automation, Digital Transformation, Google Sheets API, Replit, Cloudinary, Apollo.io

Tools & Platforms: Power BI, Tableau, Excel (Pivot Tables, Power Query), Jira, Confluence, Figma, Lucidchart, Miro, Balsamiq, Trello, Notion, Draw.io, ClickUp, Slack, Microsoft Teams

Data Analysis & Reporting: SQL, Python (Pandas, NumPy), Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), KPI Reporting, Market Research, Data Visualization, Dashboard Development

EDUCATION

MBA – Business Analytics **2023 – 2025**
Saveetha Engineering College – CGPA 8.2 Chennai, IN

BCom – Accounting and Commerce **2020 – 2023**
National College – CGPA 7.4 Trichy, IN
